

Mips

Safety for helmets

OREKA MIPS

- Helmet made of ABS
- Ventilation holes with sliding mechanism that allows the user to cover these holes.
- Incorporates the innovative Mips safety system. This system is a low friction layer that allows the head to move inside the helmet, softening the force of certain impacts.
- New VaporSX anti-sweat band, which provides extra comfort and high efficiency of sweat distribution along the band.
- Ratchet fastening for simple, fast and effective adjustment.
- 6-point inner harness for absolute comfort.
- Includes chinstrap for comfortable use.
- Five bulb holders for precise adjustment.
